

Keeper: Changing Passwords with KeeperFill

KeeperFill makes it easy to change your passwords. When a user visits a site's "Change Password" page, you will receive a prompt from Keeper asking if you would like help changing your password. By clicking **Yes**, Keeper will run a wizard that walks you through a few quick steps to change your password and simultaneously update the record in your vault. These steps will include a series of prompts detailing the following actions:

- Autofill your old/current password
- Automatically generate and autofill a new secure password
- Confirm the changes and save them to your vault

The video below demonstrates how KeeperFill can help you change your passwords.
