

# Keeper: Installing KeeperFill

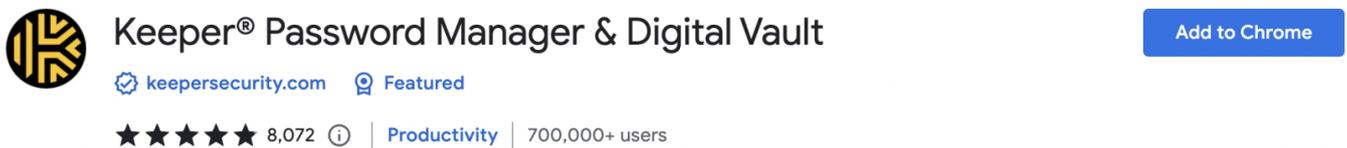

This document contains the step by step instructions on how to download and sign in to your Keeper Security Account using the KeeperFill Chrome Extension.

Before we get started, watch the short video below to see how KeeperFill works and how you will use it in your day-to-day work:

## Step 1: Install The KeeperFill Extension

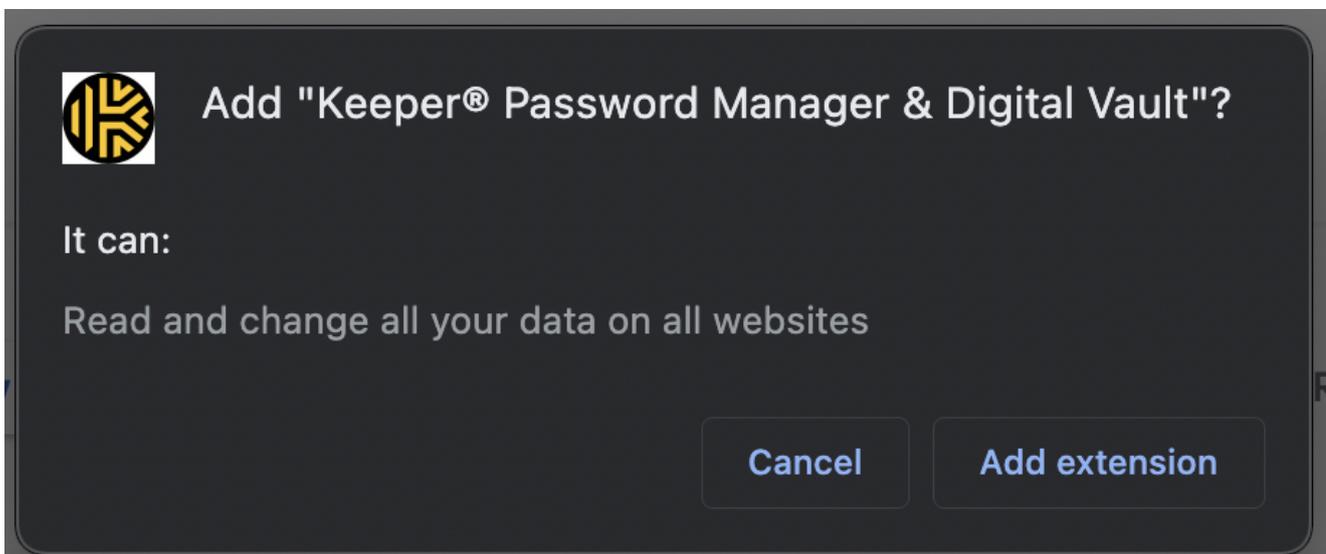

Click the following link to the Chrome Extension Store and click "Add to Chrome" to add KeeperFill to your web browser:[https://www.keepersecurity.com/get\\_extension.html](https://www.keepersecurity.com/get_extension.html)

In the Chrome Web Store Click "Add to Chrome"

The screenshot shows the Chrome Web Store listing for "Keeper® Password Manager & Digital Vault". On the left is the Keeper logo, a yellow and black geometric design. To its right is the product name, the website "keepersecurity.com", and a "Featured" badge. Below this is a 5-star rating with 8,072 reviews and the category "Productivity" with "700,000+ users". On the far right is a blue "Add to Chrome" button.

Click "Add extension"

The screenshot shows a dark grey dialog box with rounded corners. At the top left is the Keeper logo. To its right is the question "Add 'Keeper® Password Manager & Digital Vault'?". Below this, it says "It can:" followed by "Read and change all your data on all websites". At the bottom are two buttons: "Cancel" and "Add extension".

## Step 2: First Login to KeeperFill

After it's installed, click on the White Puzzle Piece on the top right corner of your Chrome Browser, this is where all your Chrome Extensions live.

1) Click the Thumbtack Icon for the KeeperFill extension. This permanently moves it to your

browser toolbar so you'll always have 1-click access.

2) Click the KeeperFill icon in your toolbar.

3) Open the Enterprise SSO Login dropdown menu.

4) Select Enterprise Domain from the dropdown menu, and enter your Enterprise Domain: rightatschoolsso.

**MAKE NOTE:** You will be required to enter our SSO domain of "rightatschoolsso" each time your session expires and you are asked to log in.

5) Enter the code that Keeper sends to your mobile device and set your "Require 2FA" to Every 30 days.

6) Click Login.

## Success!

You've successfully setup KeeperFill!

### Do you need Keeper on your mobile phone?

With the Android and iOS mobile applications, Keeper can save you even more time by auto-logging you in to sites and applications on your mobile device so you never have to remember a password.
