

Monthly "I AM"

The Monthly "I AM" is a program designed to foster positive identity, relationships, and behaviors in students through a focus on ten character and social-emotional traits across the school year. Every month features a new theme. By sprinkling discussion and activities on these themes throughout your program and highlighting role model students exhibiting these traits, you will be helping students become better equipped to talk about and deal with their own emotions, increase their social skills and positive identity, and become responsible, productive members of their Right Club community and beyond!
